SELYE JÁNOS BIBLIOGRÁFIA

*Összeállította:
Somorjai Noémi*

*Lektorálta:
Prof. Dr. Túry Ferenc
Dr. Stauder Adrienne*

Budapest 2007.

Előszó

A Magatartástudományi Intézet Könyvtára ezzel a bibliográfiai összeállítással adózik Selye János születésének 100 évfordulója alkalmából a stressz-kutatás Nobel-díjra jelölt professzora előtt.

A bibliográfia aligha tarthat igényt teljességre. Egyes források szerint Selye János 1600 publikációját tartják számon, itt mindössze közel 800 tudományos írását sikerült összegyűjteni a fontosabb magyar könyvtárak, orvosi adatbázisok és a világháló segítségével. Nem vállalkoztunk a fordításban megjelent (német, francia, olasz, spanyol, lengyel, szlovák, japán, stb.) könyvek számbavételére, csak ízelítőül került bele néhány a bibliográfiába. Selye János tudományos cikkei - a korai évek kivételével - elég jól nyomon követhetők világnyelveken is az orvosi adatbázisokban. Az eredetileg nem angolul megjelent cikkek címének angol nyelvű fordítását közöljük szögletes zárójelben, feltüntetve a cikk eredeti nyelvét. A magyarul megjelent cikkeket egy különálló listában közöljük a jobb áttekinthetőség céljából. A források (folyóiratcímek) a szabványos rövidített alakban szerepelnek a tételekben.

A bibliográfia másodlagos forrásokra épít. Alapul szolgált az Országos Széchényi Könyvtár elektronikus valamint nyomtatott katalógusa, a Semmelweis Egyetem Központi Könyvtár Nyilvános Katalógus, a Magyar Orvosi Bibliográfia adatai, a Fővárosi Szabó Ervin Könyvtár elektronikus katalógusa, a PubMed angol nyelvű orvosi adatbázis, egyes külföldi könyvtárak elektronikus katalógusa, valamint a világháló. Az adatok ellenőrzése, pontosítása nagy anyagi áldozatot követelt volna, tekintettel a magyar tudományos könyvtárakban fellelhető folyóirat-állomány korlátozott voltára.

Az összeállítás végén a történeti áttekinthetőség kedvéért időrendi sorrendben is megtalálható a szakcikkek jegyzéke időben a legújabbtól visszafelé haladva.

A bibliográfia az interneten kerül közzétételre a Semmelweis Egyetem Magatartástudományi Intézet <http://www.magtud.sote.hu> honlapján, valamint a Selye János Magyar Magatartástudományi és Magatartásorvoslási Társaság <http://www.selyesociety.hu/index.html> címén.

Budapest 2007. augusztus 6.
